Some people seem to follow what's going on in politics most of the time, whether there's an election going on or not. Others aren't that interested. Would you say you follow what's going on in politics most of the time, some of the time, only now and then, or hardly at all?

At this time, how much of a problem for state and local government budgets is the amount of money that is being spent on their public employee pension or retirement systems? Is this a big problem, somewhat of a problem, or not a problem in Wisconsin today?

 Some people say that it's understandable that public employees don't contribute to their pensions because public sector salaries are lower than salaries paid in the private sector. Other people say that public sector workers should contribute to their own pensions like everyone else. Which better describes how you feel?

Opponents of the project say that what we need is better roads and that the federal money for the train will not cover the inevitable cost over runs. They also say that the project will only create a handful of permanent jobs and that the train would not have enough ridership to pay for its annual operating costs.	356 58.0	35 56.9	321 58.1	187 61.3	170 54.8	50 63.2	124 58.6	118 55.6	62 59.4	302 59.0	27 55.1	18 50.9
Supporters of the passenger rail project say that it is an important addition to the transportation system in Wisconsin and is being paid for by 800 million dollars in federal money. They also say that the project will create jobs and that if Wisconsin does not go forward with the project, the money will be redirected to other states.	221 36.0	24 39.1	197 35.7	101 33.3	120 38.7	29 36.8	83 39.2	75 35.5	33 31.9	178 34.7	22 44.9	18 49.1
