Q.2 [Total]

Some people seem to follow what's going on in politics most of the time, whether there's an election going on or not. Others aren't that interested. Would you say you follow what's going on in politics most of the time, some of the time, only now and then, or hardly at all?

Q.20 [Total]

As you may know, Governor Scott Walker recently announced a plan that would require public employees to contribute to their own pensions and pay greater amounts for their health insurance, which would, in effect, be a pay reduction. The plan would permit most public employees to negotiate only their wages, and future wage increases above the rate of inflation would have to be approved by a voter referendum. Contracts would be limited to one year. In addition, Walker's plan also changes rules to require public employee unions to take annual votes to maintain certification as a union, stops state or local government from collecting union dues, and allows individual members to decide if they wish to pay union dues. Unions for law enforcement and firefighters would be exempt from the changes.

Q.33 [Total]

I'm now going to mention some specific ideas for reducing the state budget deficit that have recently been in the news. For each, please tell me whether you strongly favor, somewhat favor, somewhat oppose or strongly oppose each of them.

[-] Raising the income tax on people making over \$150,000 a year

Q.34 [Total]

Some people say that the proposed changes to public employees' collective bargaining rights are a necessary reform because they will give local governments greater flexibility to control their budgets over several years.

Others say that public employees are willing to compromise on pensions and benefits, but limiting collective bargaining rights does nothing to address the state's budget situation and is really just an attempt to get rid of public employee unions.

Which of these statements comes closest to your point of view?

Q.36 [Total]
 Some people say
 it is important to maintain strong air and water quality regulations to protect the environment,
 even if it costs some jobs or hinders Wisconsin's economic growth.
 Others say
 job creation and economic development are more important, even if it
 means weakening air and water quality regulations and potentially
 harming the environment.
